

MAKHLOUF FECHETAH

Computer Science Student — Artificial Intelligence | Full-Stack Development | Data & Machine Learning

Saharidj, Bouira, Algeria | +213 666 218 828 | makhlouffechetah65@gmail.com

PROFILE

Computer Science student specializing in **Artificial Intelligence**, currently pursuing a Master’s degree at the University of Bouira. Strong academic background in machine learning, deep learning, databases, software engineering and computer systems, combined with practical experience in (python) web and desktop application development. Highly disciplined and organized, with a strong interest in continuous self-improvement, sports, healthy lifestyle and personal development. Interested in AI, software development, data analysis and intelligent applications.

EDUCATION

Master’s Degree in Computer Science — Artificial Intelligence **2025–2027 | In progress**
University of Bouira (Akli Mohand Oulhadj)

- **Master 2 — 2026–2027** : Currently enrolled in 2nd year.
- **Master 1 — 2025–2026** : Annual average **15.04/20**

Bachelor’s Degree in Computer Science — Computer Systems **2022–2025**
University of Bouira (Akli Mohand Oulhadj)

- Overall average: **12.06/20**
- L1: 11.57/20 · L2: 12.05/20 · L3: 12.54/20

Baccalauréat — Experimental Sciences **2022**
Belkacemi Ali High School

Average: **12.94/20**

PROFESSIONAL EXPERIENCE

IT Intern — Information Systems **Feb 2025 – Apr 2025**

SONATRACH — Pipeline Transportation Activity (TRC), Béni Mansour Station

- Completed a practical internship in Computer Science and Information Systems.
- Developed a **desktop application for medical-record management**.
- Technologies: **Electron, SQLite, HTML, CSS and JavaScript**.
- Worked on database management and desktop information-system functionality.

Auto-Entrepreneur — Micro-Importation **May 2026 – Present**

ANAE — Algeria

- Registered as a self-employed entrepreneur in **micro-importation**.
- Manage activities related to sourcing, purchasing and commercial operations.

PROJECTS

E-SCOOT DZ — Full-Stack E-Commerce Platform

React | TypeScript | Django REST | PostgreSQL | Redis | Celery | Docker | AI

- Developed a full-stack electric scooter e-commerce platform with product, cart, checkout, order management, and admin dashboard features, supporting EN/FR/AR (RTL).
- Integrated AI-powered product assistance and comparison using LlamaIndex/vector-based retrieval, backed by PostgreSQL, Redis, Celery and Docker.
- Developed collaboratively.

Medical Desktop App **Electron | SQLite | HTML | CSS | JavaScript**

- Desktop application for medical-record management, developed during the SONATRACH internship.
- Focused on user interface, local database management and information-system functionality.

Jadwal — Time & Schedule Management **Python | PostgreSQL | JavaScript**

- Weekly timetable and task-management application with automatic schedule generation and task tracking.
- Includes accounts, conflict detection, export, productivity scoring and dark mode.

Cat vs Non-Cat Detector **Python | TensorFlow | Streamlit**

- Neural-network image classifier for cat/non-cat image classification.
- Implemented data augmentation and deployed with Streamlit.

TECHNICAL SKILLS

- **Programming:** Python, JavaScript, SQL, HTML5, CSS3, Algorithms & Data Structures, Object-Oriented Programming
- **Web & Backend:** Django, Flask, Streamlit, Full-Stack Development
- **AI & Data:** Artificial Intelligence, Machine Learning, Deep Learning, Computer Vision, Data Analysis, scikit-learn, TensorFlow
- **Databases:** SQLite, PostgreSQL, SQL, Database Design, Advanced Databases
- **Systems:** Operating Systems, Computer Architecture, Computer Networks, Information Security, Information Systems, Virtualization & Cloud
- **Tools:** Git, GitHub, Electron, VS code

CERTIFICATIONS

- **Neural Networks and Deep Learning**
- **Python**
- **Git & GitHub**
- **SQL**
- **Gemini Certified Student (University)**

LANGUAGES

Tamazight — Native **Arabic** — Native
French — B2 **English** — B1-B2

LIFESTYLE & PERSONAL DISCIPLINE

- Kickboxing — 2022 - Present
- Boxing — 2018 - 2019
- Maintain a healthy and balanced diet (Avoid sugar)
- Regular physical exercise, consistency and self-discipline
- Time management, Structured daily routine
- Personal development and continuous improvement
